

# Reasons to Base Operations in Indiana

**Friendly insurance tax environment** – As of January 2008, the Indiana premium tax rate is 1.3 percent, which minimizes a domestic's retaliatory tax exposure when doing business in other states. Domestic insurers may opt to pay the premium tax or the corporate gross income tax.

**Access to trained insurance force** – There are 60,240 company employees and agents working in Indiana. A number of state institutions of higher learning maintain significant insurance and actuarial programs including Ball State University, Butler University, Indiana State University, Ivy Tech Community College and Purdue University.

**Positive regulatory climate** – Indiana has consistently been rated one of the top states for commercial lines by the Property and Casualty Insurance Association of America (PCIAA). The Indiana Department of Insurance has made an efficient and consistent regulatory approach their primary focus.

## Economics\*

Indiana's insurance industry has a huge impact on the state's economic health. Consider the following:

- Insurance premium tax receipts and retaliatory fees totaled more than \$191.7 million in 2008.
- Indiana's insurance carrier employees and agents contributed nearly \$5.5 billion to the Gross State Product in 2007.
- The insurance industry contribution to the Gross State Product (\$5.69 billion) was about 2.4% of the state's GSP in 2007 and was larger than agriculture and mining combined.
- According to the Indiana Department of Insurance, there are 181 insurance companies and farm mutuals domiciled in Indiana.
- Indiana has approximately 1,965 insurers licensed in the state.
